

40th Anniversary Celebration Sponsorship Proposal

We believe professional mental health care is a right, not a privilege. That's why we offer a sliding scale fee to fit all financial situations. Do you share our commitment to a mentally healthy community? We invite you to partner with us to expand access to crucial mental health care through your sponsorship of our 40th Anniversary Celebration on April 30, 2026.

Together, we will honor the milestone of 40 years of service and fortify our resources to meet the growing mental health challenges of the next four decades.

Our team of licensed and registered counselors offer comprehensive therapy for individuals (ages 7-90+), couples, and families, complimented by our Marriage Preparation Program and psycho-educational workshops. NCC is certified by the Oregon Health Authority as a Cultural and Linguistic Specific Service Provider, offering bi-lingual and bi-cultural care in Spanish and Mandarin. We are a contracted provider for the Oregon Health Plan (OHP).

The Need for Partnership

Mental health struggles impact all sectors of our community, generating significant costs. Unaddressed needs can lead to:

- Strained family relationships, domestic violence, and family disruption
- Reduced productivity, decreased academic performance, and increased unemployment
- Worsened physical health outcomes, increasing overall healthcare costs
- Increased involvement with law enforcement and risk of homelessness

Addressing these struggles is crucial, not just for the well-being of the individual, but also for the health and prosperity of communities.

The Impact of Partnership

Are you ready to invest in building a more resilient community? Your sponsorship is a crucial investment in the health of individuals facing financial and systemic barriers to accessing professional mental health care.

Together, your support will directly help us:

- Decrease the stigma of treatment
- Heal family relationships and create stability
- Improve academic performance for students
- Increase work productivity and reduce the burden on the criminal justice system
